### OPTIONAL MATERIALS

- 200+ grit sandpaper
- Polycrylic sealant
- Painter's tape
- Kneaded eraser

### YOU WILL ALSO NEED

- Pen or pencil

### PROJECT PLAN

- Fluff paint brushes before painting.
- Paint or stain birch circle (if desired) and allow to dry completely. Paint or stain "hi" and allow to dry.
- Position "hi" where preferred, then glue into place and allow to dry.
- Use graphite paper and tracing patterns to create your design on the birch circle:

Place the graphite paper on the circle, dark side down. Place your tracing design on top of the graphite paper with the outline facing up.

**TIP:** Lightly apply painter's tape to help keep everything in place.

- Use a pen, pencil, or soft-tipped marker to trace the outline.

Begin with light pressure and adjust by peeking under the paper to see how dark your lines are. Use a kneaded eraser (made to pick up graphite) to lighten or remove lines.

**TIP:** Use a colored writing tool to see which lines you've gone over already.

- Paint your design and allow to dry.
